

Presence Motorized Mobile & Floor

Updated and improved!

SMS Presence series has a unique design that completely hides cables and peripherals inside the product. Since we never get tired of improvements, our premium floorstand now has even more refined details as well as a new color option, Dark Grey. Attractive and elegant from all sides, and thus able to be placed in the centre of the room. Perfect for large, heavy and touch sensitive displays, thanks to the very stable, patented design.

Brand new is the option of a foot possible to bolt to the floor and the 90 degrees rotatable slide for switching from landscape to portrait mode, no tools needed.

The motorized height adjustment is soft and quiet, readily available from a button at the side of the unit, behind the display. Motorized height adjustment works for most markets (both 110 and 230 V) and allows you to work ergonomically. The display can be locked with the accompanying locking screw for personal safety, or with a padlock (not included) which provides increased protection from theft.

Installation is easy and quick, while the hidden cable chain inside the product ensures that the cables run freely with no risk of fastening. The design of the SMS Presence is, furthermore, protected.

Finish: Dark Grey.
